LETTER OF RECOMMENDATION

Dear Sir/Madam,

I'm delighted to recommend **Mr. Pradeep M** for admission at your esteemed University. He was an intern in our company earlier. I met him for the first time about a four months ago when he started working as an intern. He was fascinated by our company's strategy and had shown great enthusiasm for being a part of our company. I was impressed by his dynamic and inquisitive nature.

During his internship he had shown great passion and demonstrated his skills through work. He prepared well in advance learning of all the required concepts and technologies. He was on par with all the other interns both in terms of acquaintance and productivity. He was assigned various tasks in **Cyber Security**. His work was phenomenal during the Internship and I always received a positive feedback about him. He was always co-operative and good at communicating his doubts and suggestions with the team.

Considering his conduct during the internship, I can say that he is a keen learner and had learned new technologies in a relatively short period. His analytical skills and communication skills are apt and I rate them highly. He is dependable and keeps up to his commitments. I can say that he has good standards compared to other well-qualified individuals in similar roles in terms of mental aptitude and ability to work alone when needed. Through all my interactions with him, I would describe him as a person with a clear vision and dedication. I am confident that he will be the same in the future and be a great student. It is a pleasure to recommend him to pursue his academics at your esteemed University. I wish him the best of luck.

Please feel free to contact me if you have any further questions.

Yours Sincerely,

Santosh Chaluvadi
