Mahaveer A

Student at Panimalar Engineering College. Believes in work than certifications.

Chennai, Tamil Nadu, India

Summary

FULL STACK WEB DEVELOPMENT

- I am currently immersed in the world of full-stack development, with a focus on building innovative solutions. Currently, I am engaged in an industry project centered around a biometric attendance system, leveraging my expertise in Python Flask, SQLAlchemy, HTML, CSS, and JavaScript.

- Furthermore, I am continuously expanding my skill set and am currently in the process of learning React.js and MongoDB to further enhance my capabilities in creating dynamic and efficient web applications.

- With a passion for technology and a drive to solve complex problems, I am committed to delivering high-quality solutions that meet the needs of both clients and end-users. Connect with me to collaborate on exciting projects or discuss the latest trends in software development.
